INDEPENDENT AUDITOR'S REVIEW REPORT

**To the Board of Directors
Doha Insurance Group Q.P.S.C.
Doha – Qatar**

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Doha Insurance Group Q.P.S.C. (the “Company”) and its subsidiaries (together the “Group”), as at June 30, 2021, and the related interim condensed consolidated statement of profit or loss and interim condensed consolidated statement of comprehensive income for the three and six month periods then ended and the related interim condensed consolidated statement of changes in equity and interim condensed consolidated cash flows for the six month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of these interim condensed consolidated financial information in accordance with International Accounting Standard 34 “Interim Financial Reporting”. Our responsibility is to express a conclusion on the interim condensed consolidated financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of the interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing. Consequently, it does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

The Group did not state its insurance contract liabilities and other technical reserves as at March 31, 2020 on the basis of an actuarial valuation and therefore we were not able to complete our review of these reserves as of that date. Insurance contract liabilities and other technical reserves as at March 31, 2020 enter into the determination of the financial performance and cash flows for the three month period ended June 30, 2020. Our review conclusion on the interim financial information for the six-month periods ended June 30, 2020 was modified accordingly, due to the potential impact on the reported profit for the three month period ended June 30, 2020. Our conclusion on the current period interim financial information is also modified because of the effect of this matter on the comparability of the current period's figures and the corresponding figures.

INDEPENDENT AUDITOR'S REVIEW REPORT (CONTINUED)

Qualified Conclusion

Based on our review, except for the matter described in the preceding paragraph, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

(a) Statement of compliance (continued)

In addition, the results of the six-month period ended June 30, 2021 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2021.

Judgments, estimates and risk management

The preparation of these interim condensed consolidated financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Group's annual consolidated financial statements for the year ended December 31, 2020.

The Group's financial risk management objectives and policies are consistent with those disclosed in the Consolidated Financial Statements for the year ended December 31, 2020.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies used in the preparation of this interim condensed consolidated financial information are consistent with those used in the preparation of the Group's annual financial statements for the year ended December 31, 2020, and the notes attached thereto, except for the adoption of certain new and revised standards, that became effective in the current period as set out below.

(i) New and amended IFRS Standards that are effective for the current year

<u>New and revised IFRSs</u>	<u>Effective for annual periods beginning on or after</u>
Interest Rate Benchmark Reform—Phase 2 (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16)	January 1, 2021
The amendments address issues that might affect financial reporting as a result of the reform of an interest rate benchmark, including the effects of changes to contractual cash flows or hedging relationships arising from the replacement of an interest rate benchmark with an alternative benchmark rate. The amendments provide practical relief from certain requirements in IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 relating to: – changes in the basis for determining contractual cash flows of financial assets, financial liabilities and lease liabilities; and – hedge accounting.	

The application of these revised IFRSs has not had any material impact on the amounts reported for the current and prior years but may affect the accounting for future transactions or arrangements.

Legal claims

The Group is subject to litigations and claims in the normal course of its business. The Group does not believe that the outcome of these court cases will have a material impact on the Group's income or financial position.

18. FINANCIAL INSTRUMENTS

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted prices (unadjusted) prices in active markets for identical assets or liabilities that the Group can access at the measurement date;

Level 2: Inputs other than quoted prices included within level 1 that are observable for the assets of liability, either directly or indirectly; and

Level 3: Unobservable inputs for the asset or liability. The following table provides the fair value measurement hierarchy of the Group's financial asset and liabilities at June 30, 2021 and December 31, 2020:

	June 30, 2021	Level 1	Level 2	Level 3

During the period ended June 30, 2021 and year ended December 31, 2020, there were no transfers between Level 1 and Level 2 fair value measurements and no transfers into and out of Level 3 fair value measurements.

18. FINANCIAL INSTRUMENTS (CONTINUED)

Fair value measurements

The fair value of financial instruments at period end approximate their carrying value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

Valuation techniques and assumptions applied for the purposes of measuring fair value.

Fair value measurements recognised in the interim condensed consolidated statement of financial position.

Investments in financial assets that are presented in level 1 has active markets, thus, corresponding fair value are determinable while investments presented in level 2 has used net asset valuations and discounted future cash flows based on observable market data.

19. IMPACT OF COVID-19

The World Health Organization declared on March 11, 2020 the Novel Coronavirus (Covid-19) as a global pandemic. This event has caused widespread disruptions to businesses and economic activity.

The Group has performed an assessment of COVID-19 implications on the financial results of the Group, in light of the available guidance of IFRS, and incorporated the outcome in these interim condensed consolidated financial statements.

i) Insurance contract liabilities

The Group is required to assess adequacy of insurance contract liabilities at each reporting date. In order to ensure technical reserves are appropriately recorded with reference to current economic and market conditions, the Group has involved actuarial expert to assess its technical reserves based on the updated inputs and assumptions as at June 30, 2021.

Also, the Group has made an assessment of outstanding claims as of June 30, 2021 and has concluded that there is no material impact on the outstanding claims due to Covid 19.

Furthermore, the Group has made an assessment of currently active insurance policies for trade credit, and workers' compensation of business. Since the business activity in these lines of business is very limited and does not include claims under pandemic situations, therefore, the Group does not foresee any unusual insurance claims arising out of these lines of business. Similarly for medical line of business, all Covid 19 impacted patients are referred to state medical facility therefore, the Group does not foresee any significant claims related to Covid 19 patients.

ii) Impact on investment portfolio

Substantial portfolio of the Group consists of investments that are carried at fair value. The Group believes that the fair values include the impact of Covid 19 and hence the investment portfolio is adjusted for the impact of Covid 19.

For unquoted investments, Group has evaluated these with reference to current economic conditions and the related impact on cash flow forecasts and has concluded that the investments are not materially impacted by Covid 19.

19. IMPACT OF COVID-19 (CONTINUED)

iii) Impact on other assets and liabilities

The Group has also assessed the impact of COVID- 19 on other assets and liabilities and ensured that proper adjustments and adequate disclosures are made in the interim condensed consolidated financial information. The circumstances under Covid 19 have created material valuation uncertainties related to properties, however, management believes that there have been no significant change in the fair value of properties from the date of the latest valuations conducted in 2020.

iv) Going concern

The Group has performed an assessment of whether it is a going concern in the light of current economic conditions and all available information about future risks and uncertainties. The forecast has been revised to reflect actual performance and the related impact of the Group's expected future performance, capital and liquidity requirements. The impact of COVID-19 may continue to evolve, but at the present time the forecast show that the Group has sufficient resources to continue in operational existence and its going concern position remains largely unaffected and unchanged from December 31, 2020. As a result, these interim condensed consolidated financial information have been appropriately prepared on a going concern basis.
